COUNTERCLAIMS

Applicant RichRelevance believes it is, and will continue to be, damaged by the existence of Registration Nos. 3,378,178 and 3,657,301 for the mark REALRELEVANCE and hereby petitions for cancellation of the same pursuant to Sections 2 and 14 of the Trademark Act of 1946, as amended (the "Lanham Act"), 15 U.S.C. §§ 1052(e), 1064, and 37 C.F.R. § 2.106(b).

27. Applicant is a corporation organized and existing under the laws of Delaware with a principal place of business at 275 Battery Street, Suite 1150, San Francisco, California 94062.

28. Applicant is the leading provider of next-generation personalization and product recommendation tools for eCommerce sites. Built on the enRICH™ platform, Applicant's products offer robust merchandiser control, are exclusively retailer focused, and employ over 40 different recommendation types with cross-placement optimization and a closed-feedback loop to display relevant, clearly-explained product recommendations.

29. Applicant owns Registration No. 3,471,575 for the RICHRELEVANCE mark in connection with "[i]nternet advertising services; [a]dvertising services" in International Class 35, filed on December 6, 2007 and registered on July 22, 2008. The RICHRELEVANCE mark subject to Registration No. 3,471,575 was first used on May 5, 2007, and first used in commerce on July 4, 2007.

30. On May 27, 2009, Applicant filed federal trademark application Serial No. 77/745,840 with the United States Patent & Trademark Office ("USPTO") for the RICHRELEVANCE mark in connection with "[a]pplication service provider (ASP) featuring software which provides collaborative filtering and optimization services to enhance online shopping and ecommerce sites" in International Class 42. The RICHRELEVANCE mark

subject to application Serial No. 77/745,840 was first used on May 5, 2007, and first used in commerce on July 4, 2007.

31. Upon information and belief, Opposer is a corporation organized and existing under the laws of Delaware with a principal place of business at 210 Broadway Street, Cambridge, Massachusetts 02139.

32. Upon information and belief, Opposer combines consumers' "real" shopping data – which enables Opposer to identify consumers' "real" tastes, interests, and preferences – and its personalization engine to generate personalized, "relevant" product recommendations and advertisements for every shopper. According to Opposer's website, Opposer offers: "Real Relevance. Real Results." Screenshots and printouts from Opposer's website, www.choicestream.com, are attached hereto as Exhibit A.

33. Upon information and belief, Opposer owns Registration No. 3,378,718 in International Class 42 for "providing online non-downloadable software for use by retailers and online entertainment providers in providing goods and services that are customized to user preferences," filed on August 22, 2006 and registered on February 5, 2008.

34. 35. Applicant is, and will continue to be, damaged by the continued existence of Registration Nos. 3,378,178 and 3,657,301 because Opposer's REALRELEVANCE mark is, and was at the time of Opposer's filing of Registration Nos. 3,378,178 and 3,657,301, merely descriptive and lacking secondary meaning.

36. Cancellation of Opposer's registrations should be granted pursuant to Section 2(e) of the Lanham Act, 15 U.S.C. § 1052(e), on the grounds Opposer's mark is merely descriptive and lacks secondary meaning, to the damage of Applicant.

WHEREFORE, Applicant respectfully requests that the Notice of Opposition be dismissed with prejudice; that Opposer's Registration Nos. 3,378,178 and 3,657,301 be cancelled in their entirety; that the Board grant such further relief as it deems just and appropriate; and that the USPTO issue a Notice of Allowance in favor of Application Serial No. 77/745,840.

Online Display Ad Performance

RealRelevance Advertising

ChoiceStream RealRelevance® Advertising boosts revenue for retailers with dynamic, personalized ads that combine the in-market relevance of search marketing with the broad reach and frequency of display advertising.

ChoiceStream ads may look similar to other ads, but only ChoiceStream ads offer personally relevant product recommendations as well as the "one-two punch" of both personalized ads and personalized landing pages. This unique combination is proven to deliver more pre-shop engagement and more online purchases than any other dynamic ad solution on the market, increasing revenue by up to 5X.

How It Works

We use your consumer shopping data — the best predictor of future purchases — and our patent-pending personalization engine to dynamically generate ads and landing pages with personalized product recommendations for every shopper. *[It is important to note that while we do analyze consumers' shopping data, we never collect any personally identifiable information. So PFI stays private and secure.]*

These recommendations create new occasions to purchase by combining the products shoppers are most likely to be in-market for now with individually targeted messages and offers that really resonate. And, best of all, they layer on the media you're already buying to increase the yield of your existing ad spend. Or, if you're not currently doing display advertising, we can buy your inventory for you through our relationship with OpenX.

The result is personalized ads that connect with your consumers and can be used to dramatically improve the results of all your ad campaigns, including pretargeting, retargeting and affiliate marketing.

With RealRelevance Advertising, you can:

- Boost net new orders from retargeting campaigns by 200-300% by creating new opportunities to purchase.
- Acquire new customers and increase foot traffic to your stores by promoting the products shoppers are in-market for now.
- Advertise local prices on local inventory to drive in-store sales.
- Increase campaign revenues up to 5X with the powerful combination of personalized ads and landing pages.
- Gain the broadest possible reach with a solution that can be run on any ad inventory or network.
